

Welcome to our virtual workbench!

Our IT professionals specialize in infrastructure virtualization, but our unique strength is our ability to help your staff understand the technology while completing your project. In doing so, our professionals bring value to your organization long after we are gone!

Whether you need help with some overflow projects,
or sourcing someone to fill a vacation spot, we can help!

HOW TO TAKE ADVANTAGE OF OUR EXPERTISE

Virtualization/Integration Consulting

- vSphere 5.x migrations and implementations.
- vCloud Implementations and consulting.
- vCenter Operations Manager.
- Site Recovery Manager.
- View 5.x implementations and consulting.
- Heterogeneous Virtualization Integrations.
- Architectural design and integration planning.
- In-depth troubleshooting and root cause analysis.
- Health checks for virtual environments.

Custom Courseware Development

- We can help you develop custom training and provide the finished product, complete with labs, demos, slides, and pre-recorded audio!
- We are not restricted to virtualization topics, as we use multi-disciplined consultants and trainers.

Server & Storage Consolidation

- Virtualization storage architecture consulting.
- Storage replication consulting; host-based or SAN-based strategies.
- Data protection and restoration consultation.
- Server consolidation planning and implementation.
- Host and SAN upgrade planning and assistance.
- Physical-to-Virtual (P2V) migrations.
- Virtual-to-Virtual (V2V) migrations

Overflow Project Staffing

- Project oversight or full project management.
- Implementation and design.
- Never say no to a project. Call us instead!

Virtualization Products and Services

- VMware vSphere
- VMware View and ThinApp
- VMware vCloud Director
- VMware vCloud Network and Security Manager
- VMware vCenter Operations Manager
- VMware Site Recovery Manager (SRM)
- VMware Charge Back
- VMware Capacity Planner

- Citrix XenServer
- Citrix XenDesktop
- Citrix XenApp

- Microsoft HyperV

Server and Storage Integration

- We are server and storage hardware agnostic, so we can help you integrate or support all the major vendors.
- We help you plan, implement, and troubleshoot your storage topology. (Fibre Channel, FCoE, iSCSI, or NAS)
- We can help you integrate your hardware solutions into your virtualization platform for maximum visibility and ease of administration.

Backup and Disaster Recovery

- Again, we are vendor agnostic so we can help you integrate your virtualization platform with the backup and disaster recovery tool of your choice.
- If you haven't developed a recovery strategy for your virtualized environment, we can help you determine a solution that fits your unique Recover Point Objectives (RPO) and Recovery Time Objectives (RTO).

WE'RE ACCREDITED

Some of our Top Vendor Certifications

- **VCI** – VMWARE CERTIFIED INSTRUCTOR
- **VCP2, VCP3, VCP4, AND VCP5** – VMWARE CERTIFIED PROFESSIONAL
- **VCP-CLOUD** – VMWARE CERTIFIED PROFESSIONAL – vCLOUD DIRECTOR
- **VCAP-DCD** – VMWARE CERTIFIED ADVANCED PROFESSIONAL – DATACENTER DESIGN
- **VCAP-DCA** – VMWARE CERTIFIED ADVANCED PROFESSIONAL – DATACENTER ADMINISTRATION
- **VAC** – VMWARE AUTHORIZED CONSULTANT
- **CCI** – CITRIX CERTIFIED INSTRUCTOR
- **CCA** – CITRIX CERTIFIED ADMINISTRATOR
- **MCITP** – MICROSOFT INFORMATION TECHNOLOGY PROFESSIONAL
- **MCT** – MICROSOFT CERTIFIED TRAINER
- **RHCE** – RED HAT CERTIFIED ENGINEER
- **SMI** – SUN MICROSYSTEMS INSTRUCTOR
- **SUN CSA** – SUN CERTIFIED SYSTEMS ADMINISTRATOR 8, 9, & 10
- **SUN CERTIFIED ARCHITECT**
